### PROFESSIONAL SUMMARY

Enthusiastic and results-driven Full-Stack Developer with extensive experience in front-end and back-end development. Proven ability to lead teams, optimize UI/UX, and deliver scalable, high-performance web applications. Adept at problem-solving, strategic project management, and fostering teamwork and collaboration. Eager to learn new technologies and continuously improve processes to drive efficiency and innovation. Passionate about Web Development and Design, ensuring seamless user experiences across all devices.

---

### WORK EXPERIENCE

#### Frontend Developer, Co-Leader & HR Associate

Dadevarzan | Apr 2022 - Jun 2023 | Tehran, Iran

- Led front-end development efforts as a Co-Leader, ensuring high standards in UI/UX design and optimizing performance for a seamless user experience.
- Played a key role in co-leading the team, fostering collaboration and maintaining strong communication, which resulted in efficient project delivery and high team morale.
- Implemented strategic task distribution to meet tight deadlines, completing a project in just 10 hours (instead of one week), while ensuring the quality of the work.
- Developed a sophisticated MLM (Multi-Level Marketing) matrix website, collaborating with backend teams for smooth integration and meeting tight deadlines with the use of advanced mathematical algorithms.
- Enhanced API consumption and front-end integration, minimizing deployment errors and improving overall project efficiency.
- Took on HR responsibilities, learning about Applicant Tracking Systems (ATS) like Taleo Recruiting Software, sourcing and reviewing profiles, and supporting recruitment efforts to improve team dynamics and efficiency.
- Eager to learn, I continually sought to improve both technical and HR-related processes, contributing to the overall success of the team and company.

## Graphic Designer

Nagshamlas | Jul 2023 - Jun 2024 | Tehran, Iran

- Created seamless designs and mockups by collaborating closely with other professionals, fostering strong connections with the team, and truly enjoying the creative process.
- Designed branding materials and marketing assets for nationwide campaigns.
- Developed an internal network for team collaboration, streamlining the design workflow.
- Gained hands-on experience in print industry standards to ensure high-quality deliverables.
- Enthusiastically learned every aspect of the printing industry to ensure customer satisfaction. Mastered print production techniques, color accuracy, and material selection to guarantee top-quality results.

## Freelance Full-Stack Developer

Upwork | Jan 2025 - Present | Remote

- Design and develop full-stack web applications for global clients.
- Build efficient, scalable, and secure solutions tailored to business needs.
- Implement Responsive Web Design principles to create user-friendly interfaces adaptable to different devices.
- Managed SEO improvements for a client project, debugging code before deployment and restructuring SEO, which led the website to rank in the top 10 search results within 24 hours.
- Managed client communications, gathered requirements, and delivered high-quality products.
- Eager to learn and adapt to new client requirements, technologies, and development methodologies.

---

## WHY I AM A GREAT CHOICE

Although my professional work experience may not be extensive yet, the time I have spent in the industry has been incredibly valuable. I've learned a great deal in a short time and have built a solid foundation in web development, design, and problem-solving. What sets me apart is my extreme adaptability, ability to quickly learn new technologies, my deep love for the job, and my focus on fostering teamwork. I am passionate about continuously improving my skills and am excited about tackling new challenges.
